

Property Market & Pricing vs Median sale amount

X

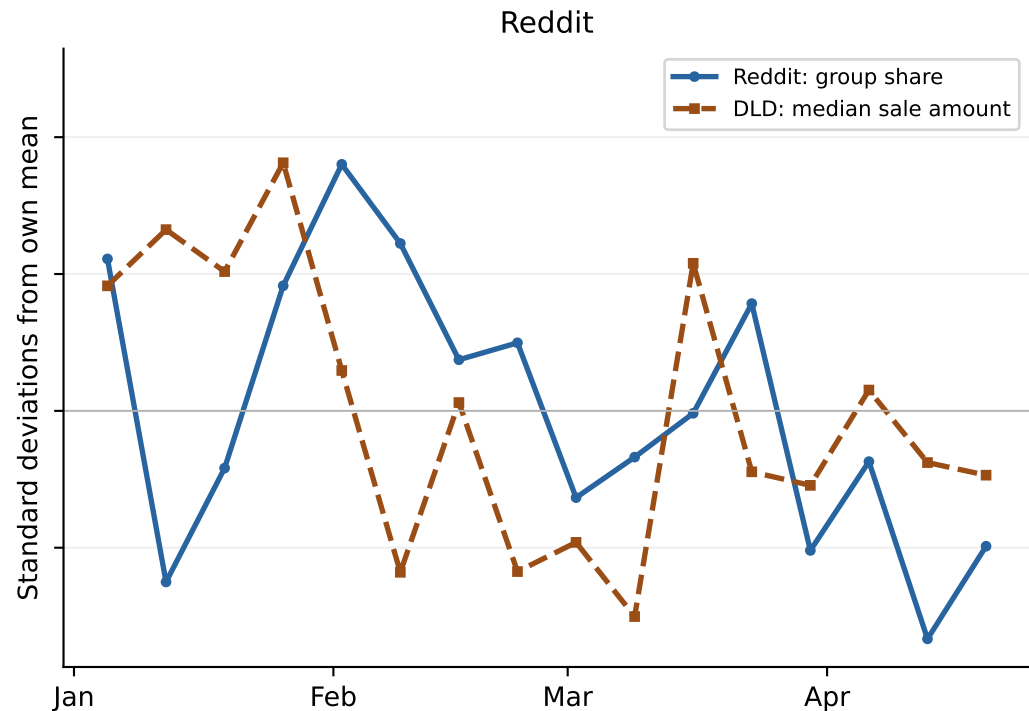

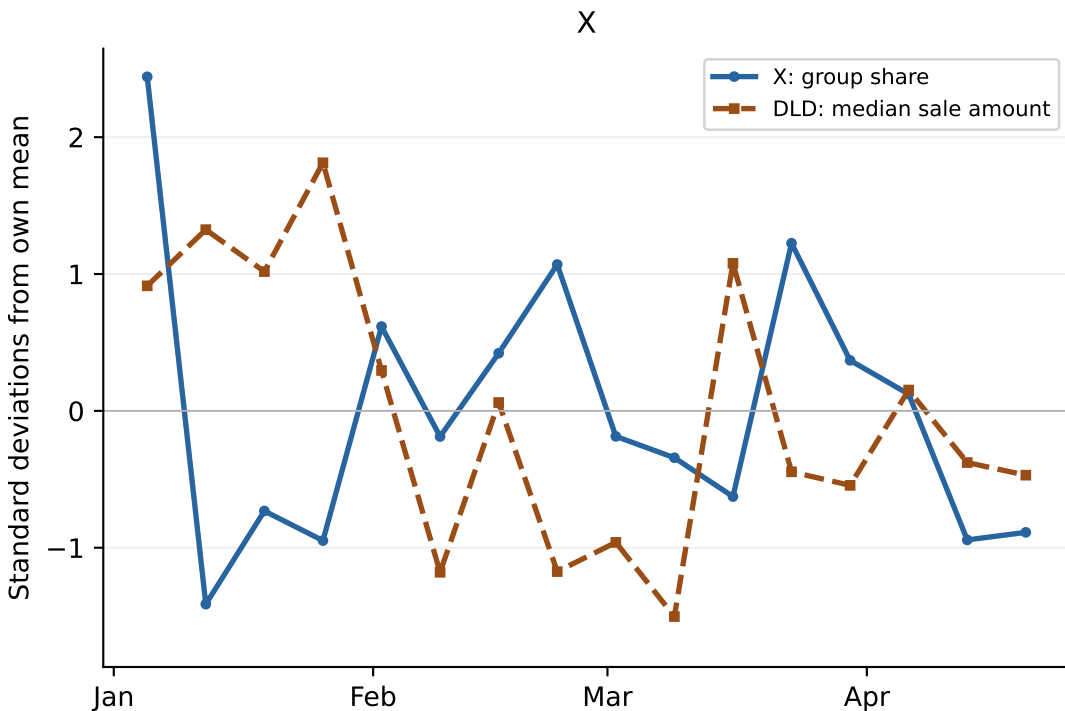

Reddit

Primary: registered transaction size, not a price index

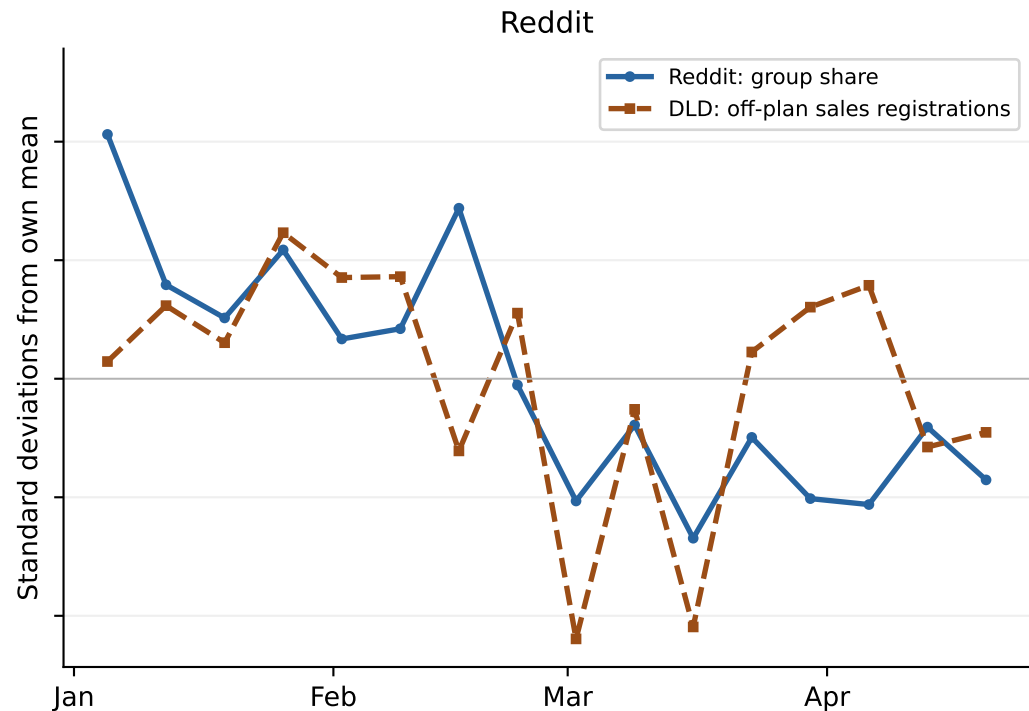

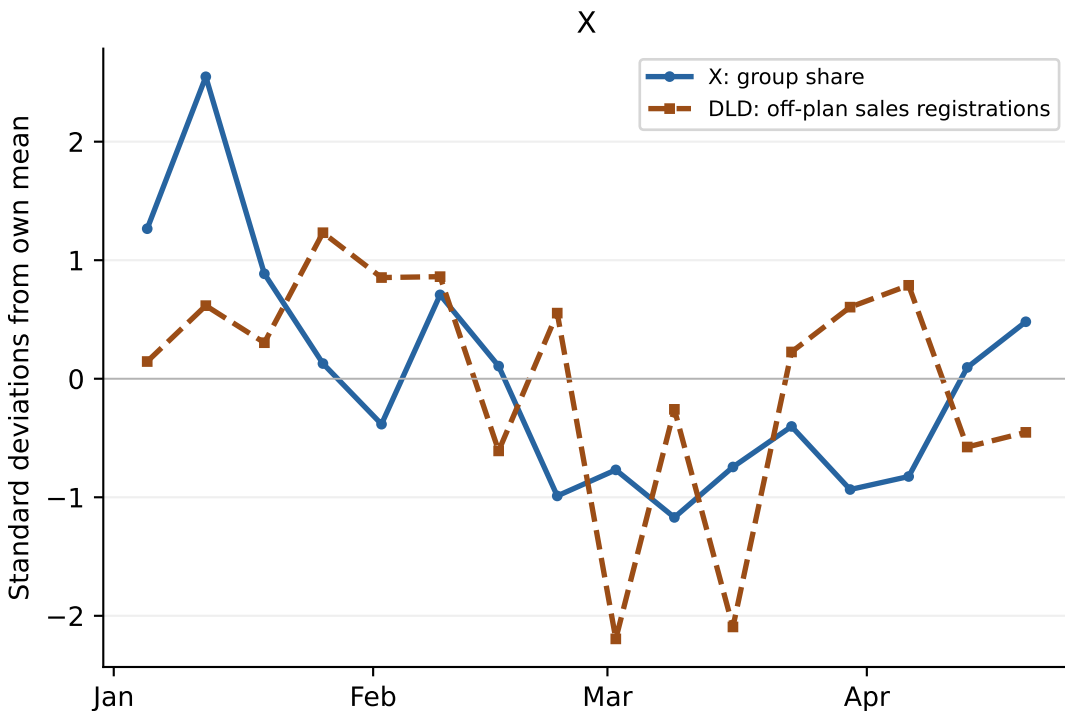

16 Monday-Sunday weeks, January-April 2026. Standardisation compares movement, not units or causal effects.

Property Investment & Finance vs Median sale amount

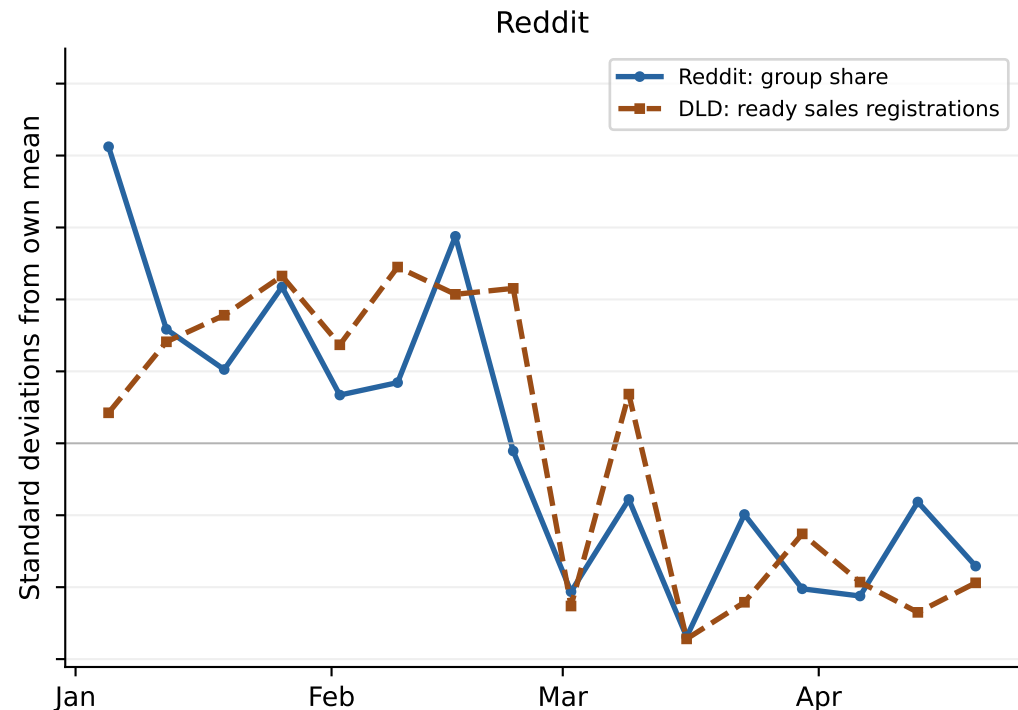

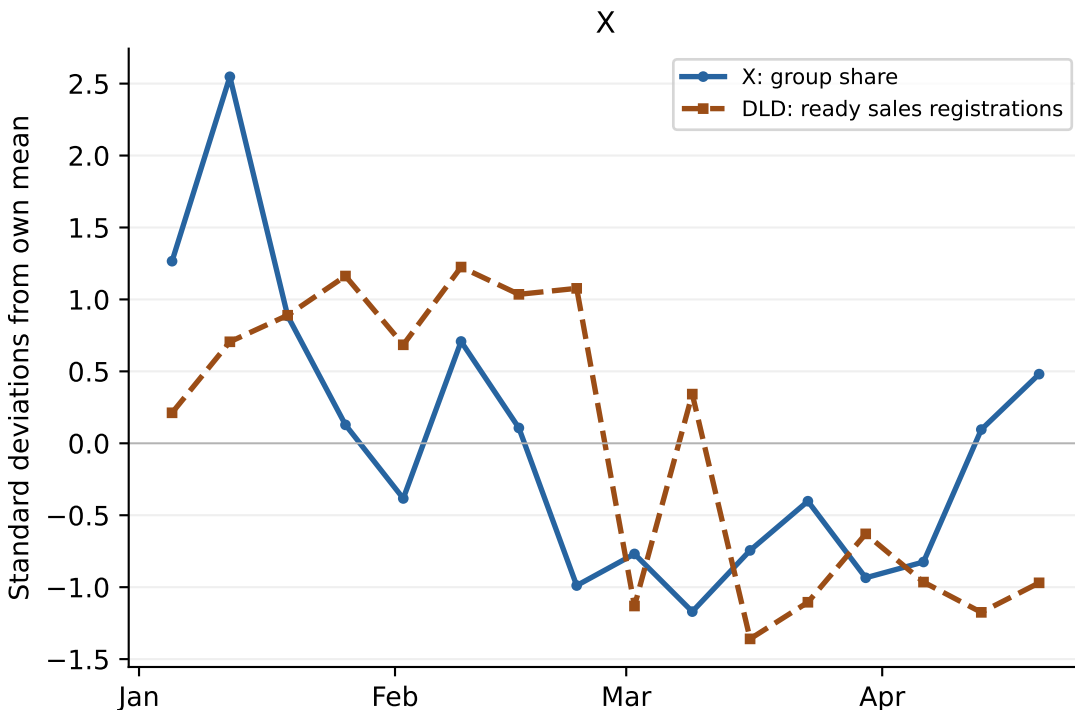

Context only: does not measure investment returns or financing conditions
16 Monday-Sunday weeks, January-April 2026. Standardisation compares movement, not units or causal effects.

Developers & Property Projects vs Off-plan sales registrations

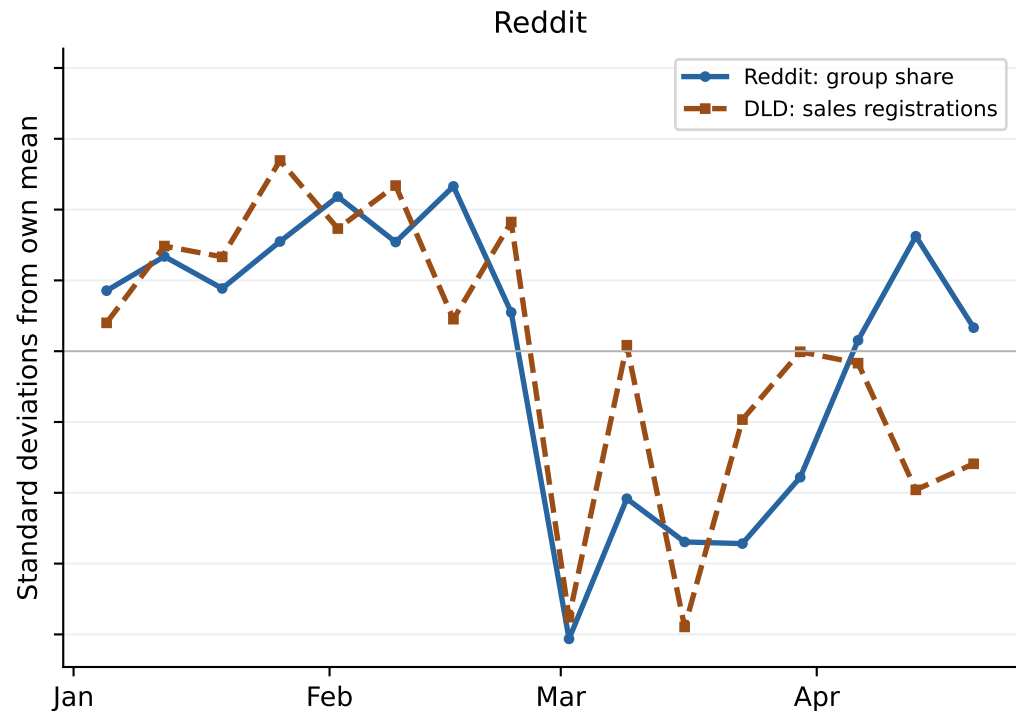

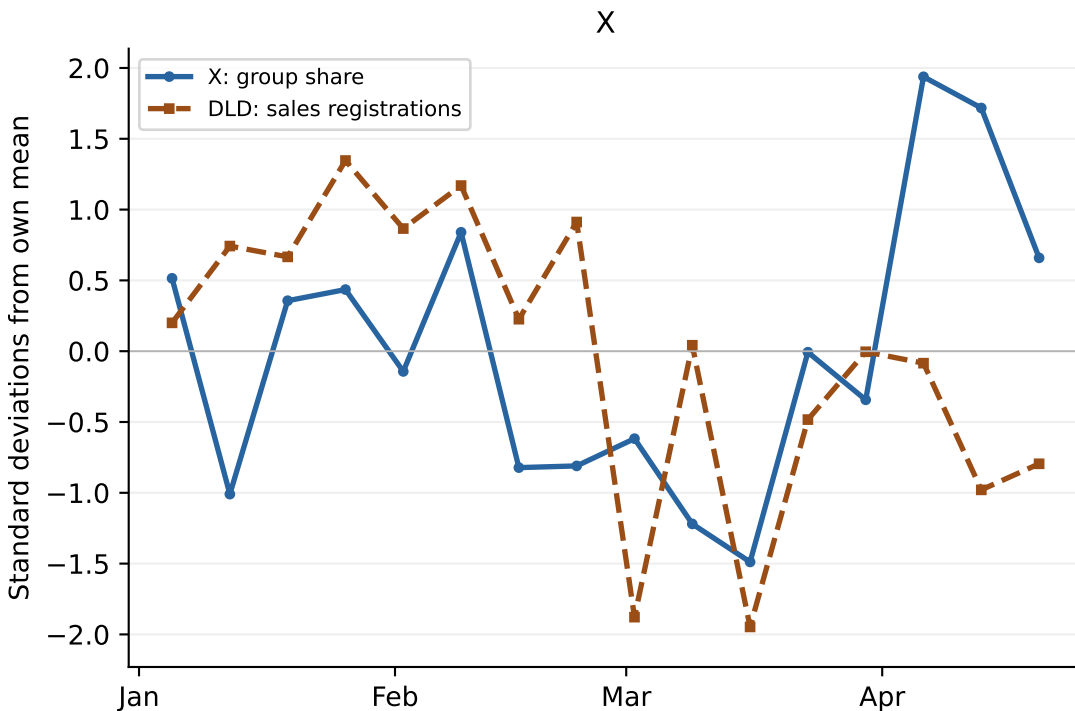

Primary: discussion of developers versus off-plan registration activity
16 Monday-Sunday weeks, January-April 2026. Standardisation compares movement, not units or causal effects.

Developers & Property Projects vs Ready sales registrations

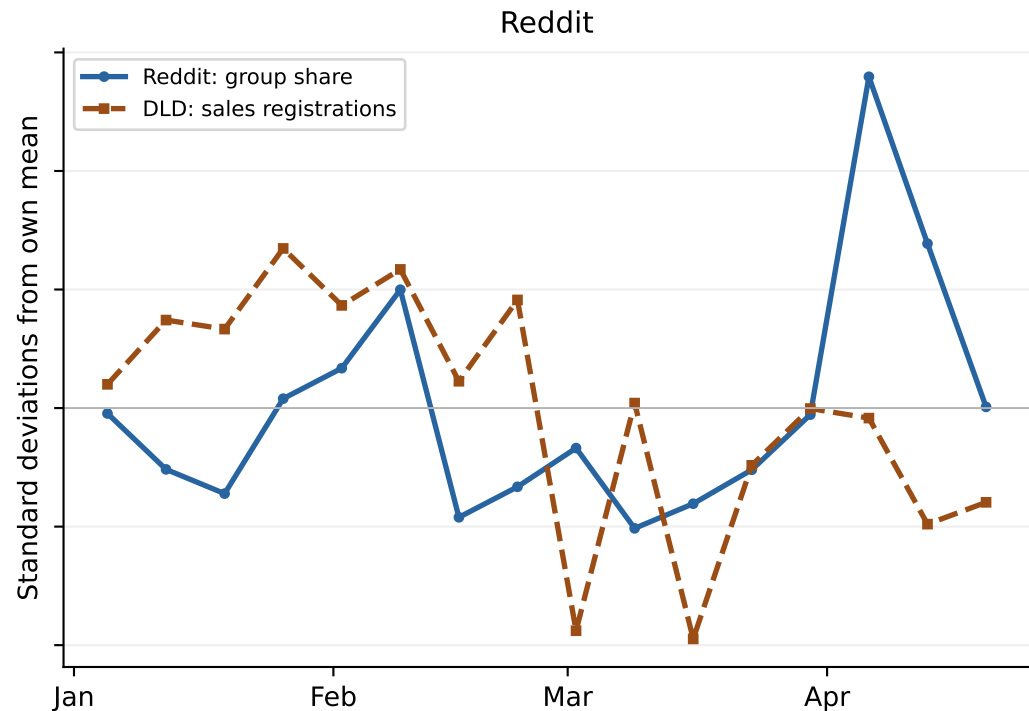

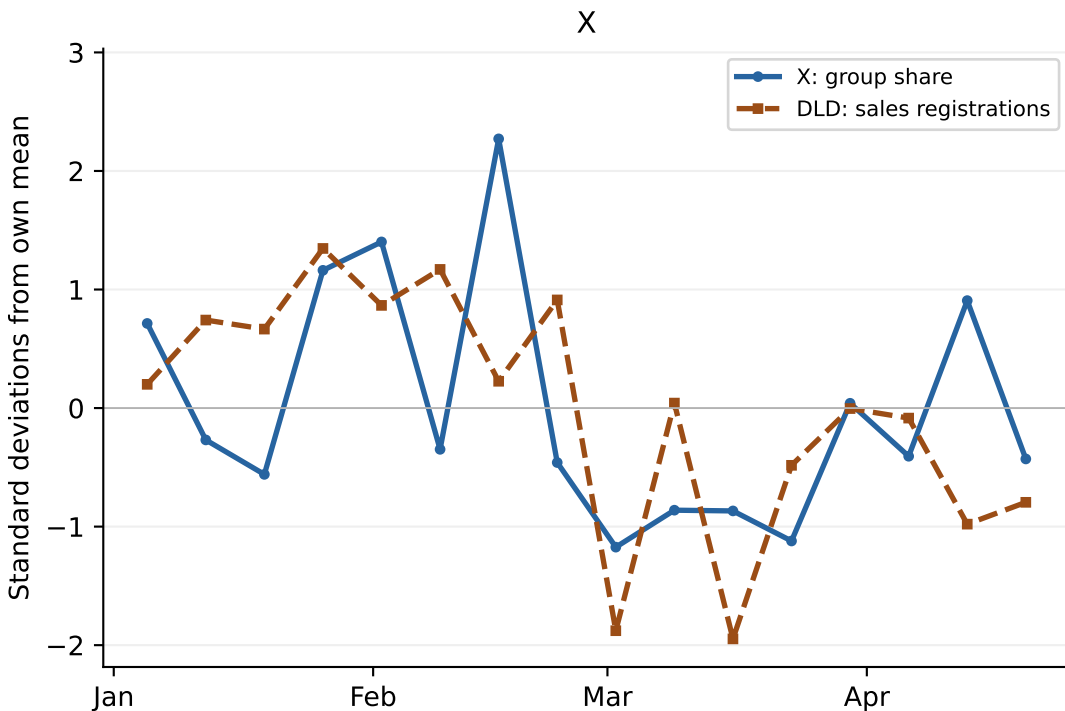

Primary segment comparison: developer discussion versus ready sales
16 Monday-Sunday weeks, January-April 2026. Standardisation compares movement, not units or causal effects.

Property Locations & Characteristics vs Sales registrations

Context only: aggregate registrations do not validate location-specific discourse
16 Monday-Sunday weeks, January-April 2026. Standardisation compares movement, not units or causal effects.

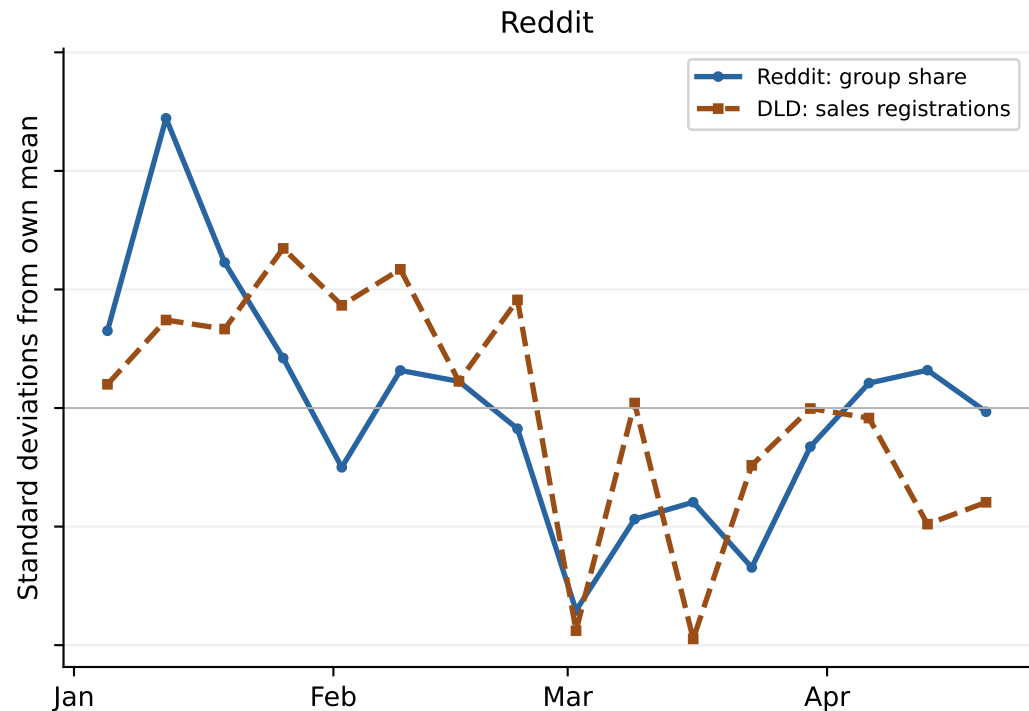

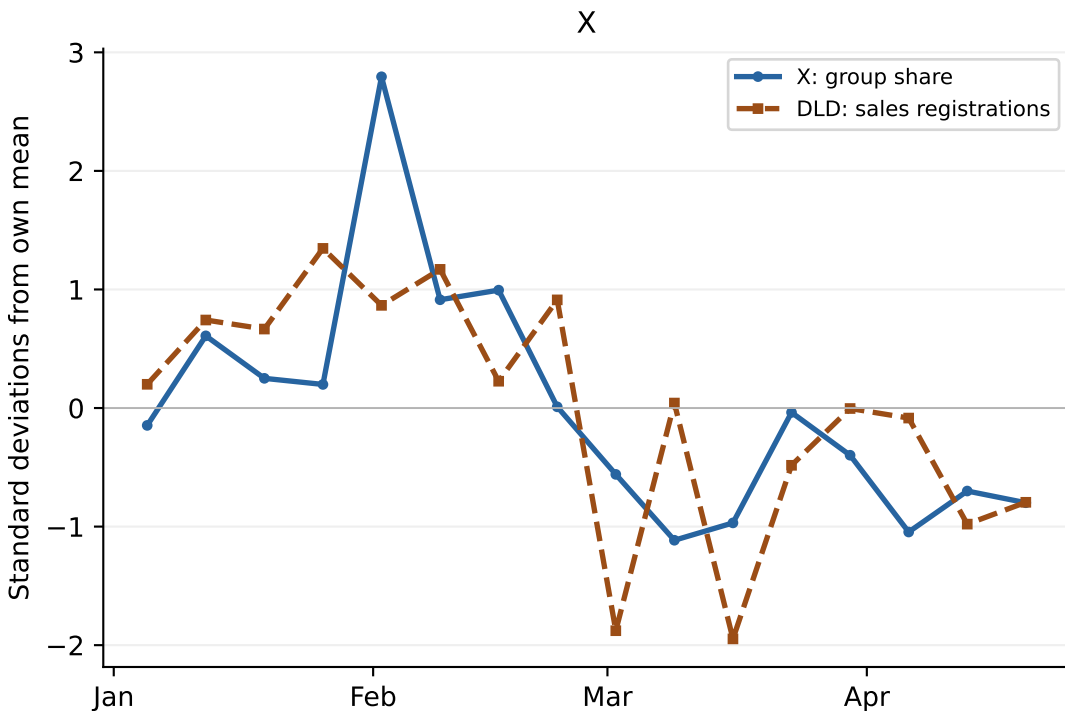

Rental & Tenancy vs Sales registrations

Context only: no rental-registration series is available

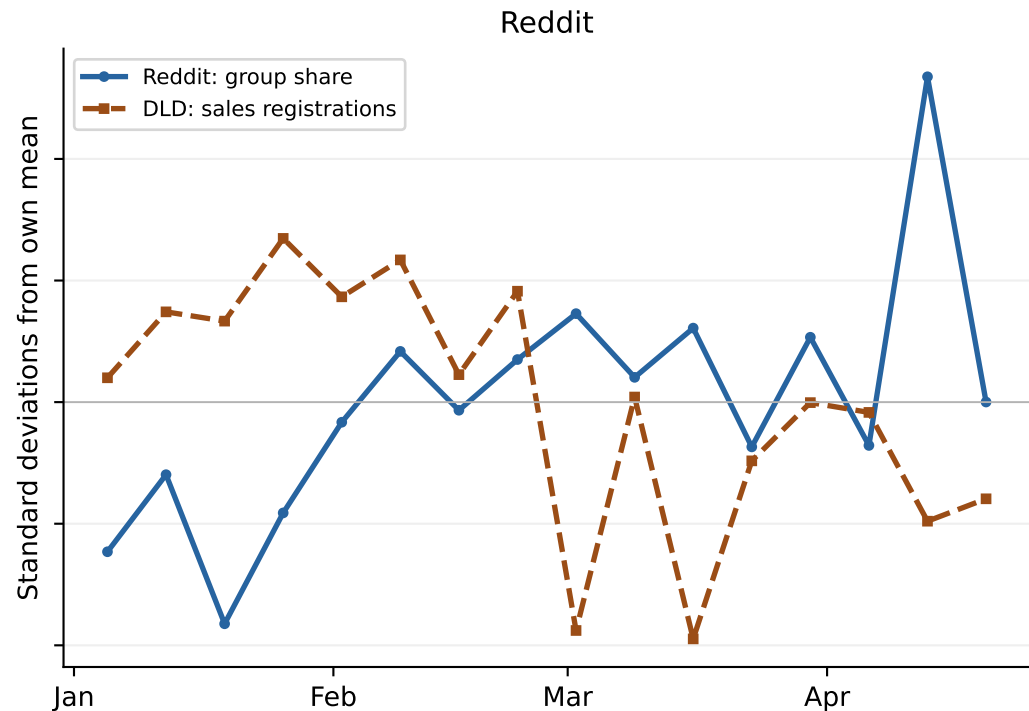

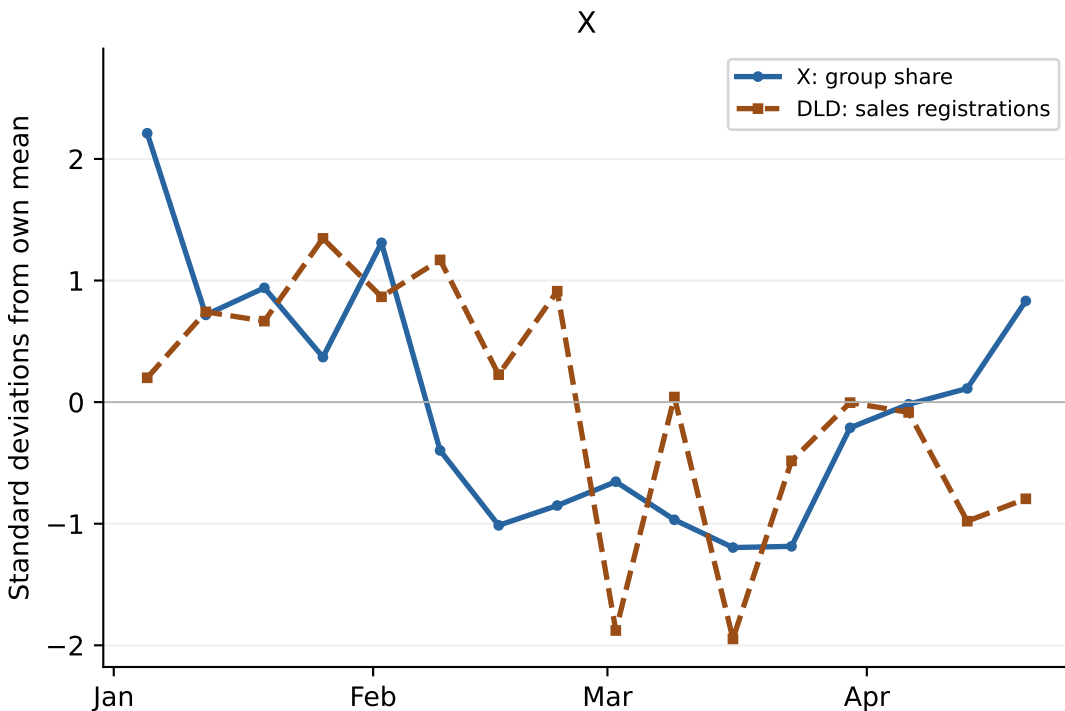

16 Monday-Sunday weeks, January-April 2026. Standardisation compares movement, not units or causal effects.

Property Transactions & Professional Services vs Sales registrations

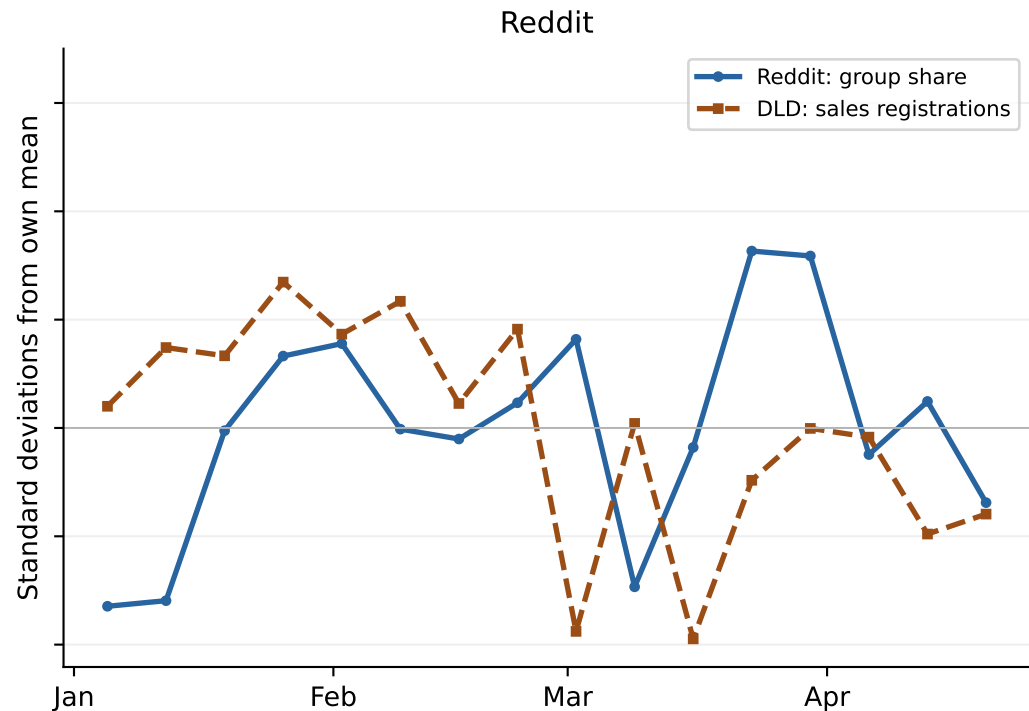

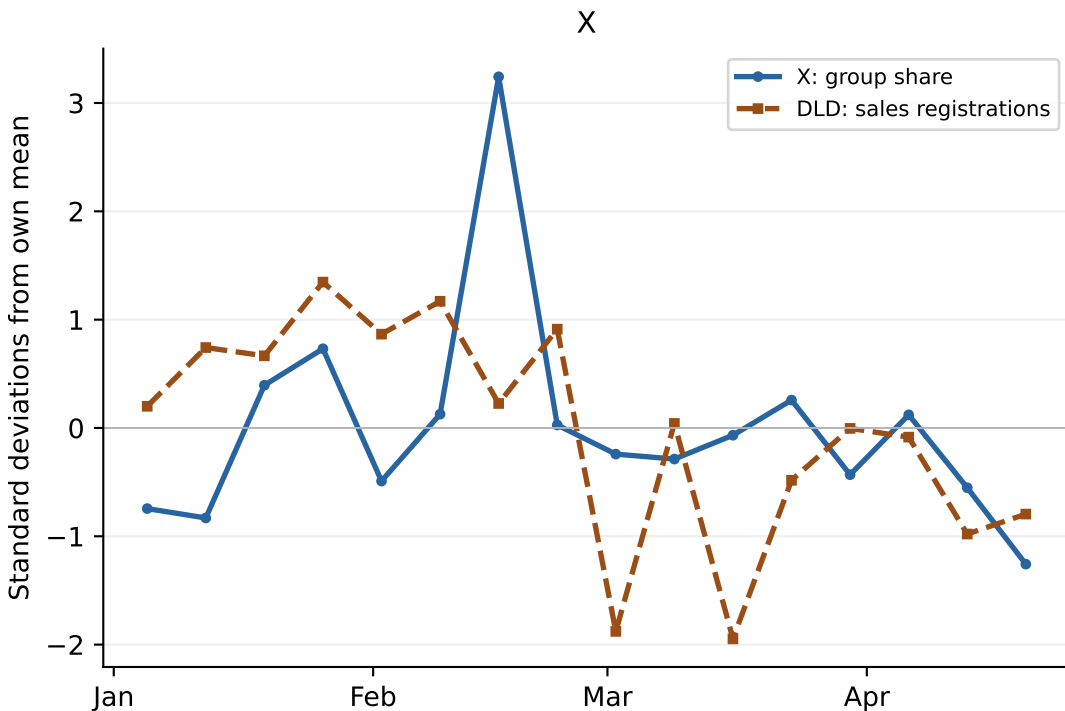

Exploratory: transaction-related discussion versus sales registration activity
16 Monday-Sunday weeks, January-April 2026. Standardisation compares movement, not units or causal effects.

Property Regulation, Legal & Ownership vs Sales registrations

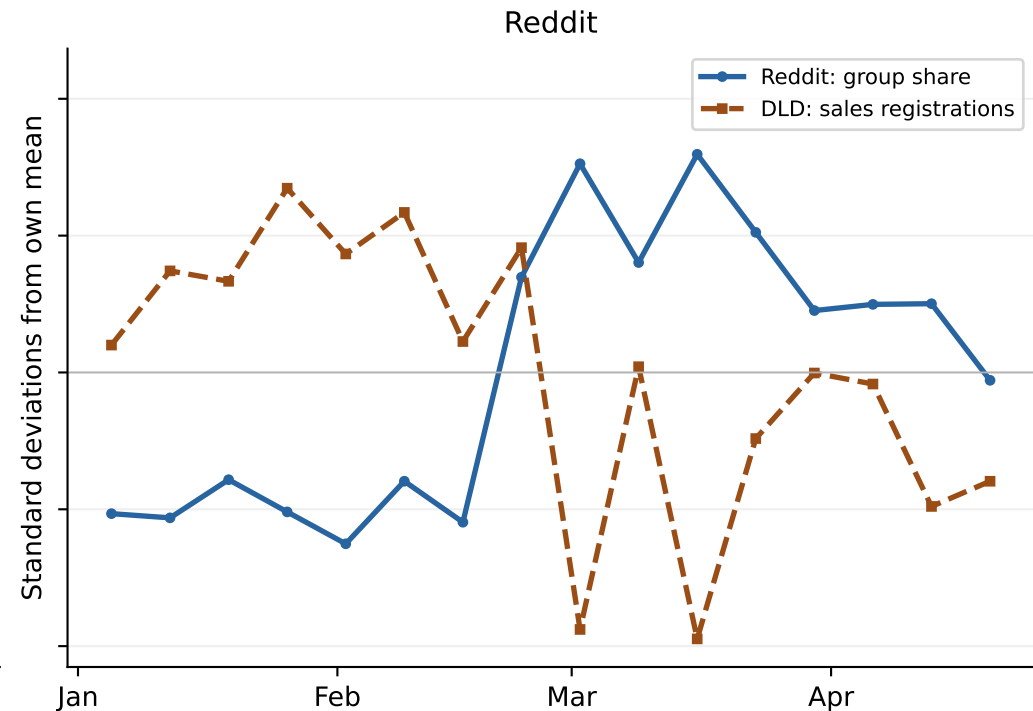

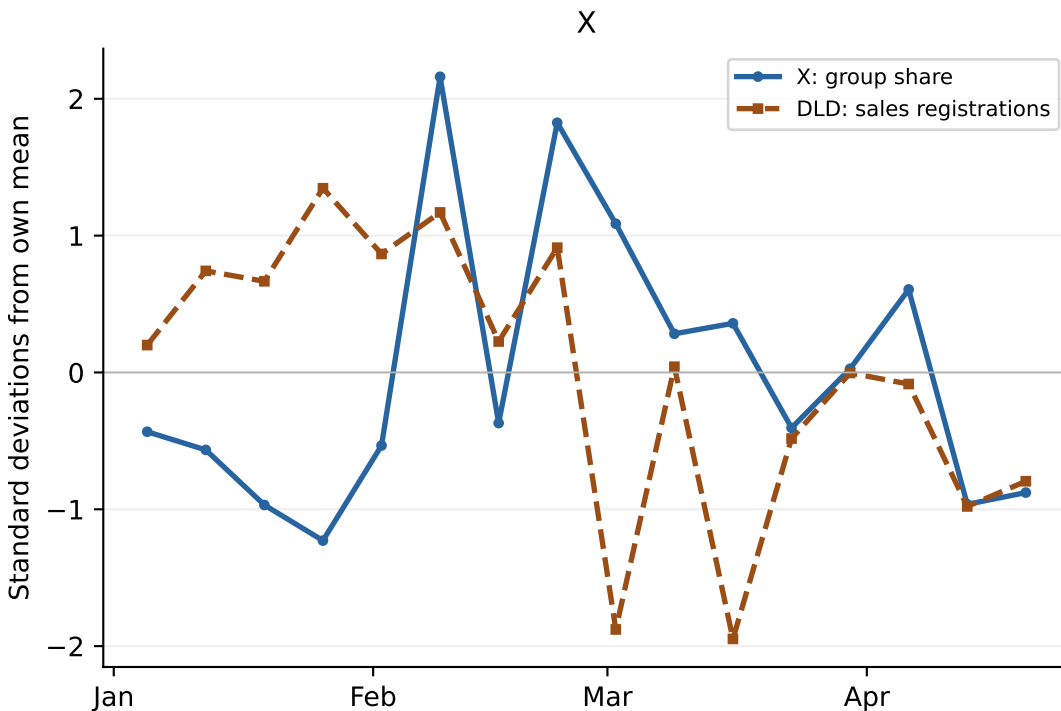

Context only: sales counts do not measure regulatory changes or disputes
16 Monday-Sunday weeks, January-April 2026. Standardisation compares movement, not units or causal effects.

Property Management & Living vs Sales registrations

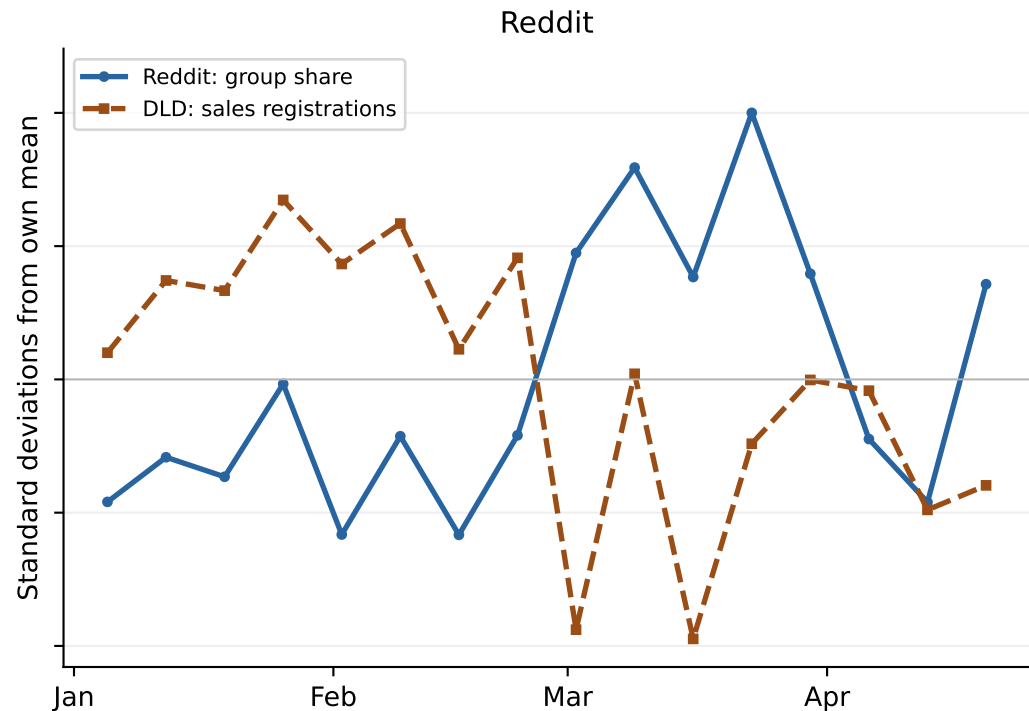

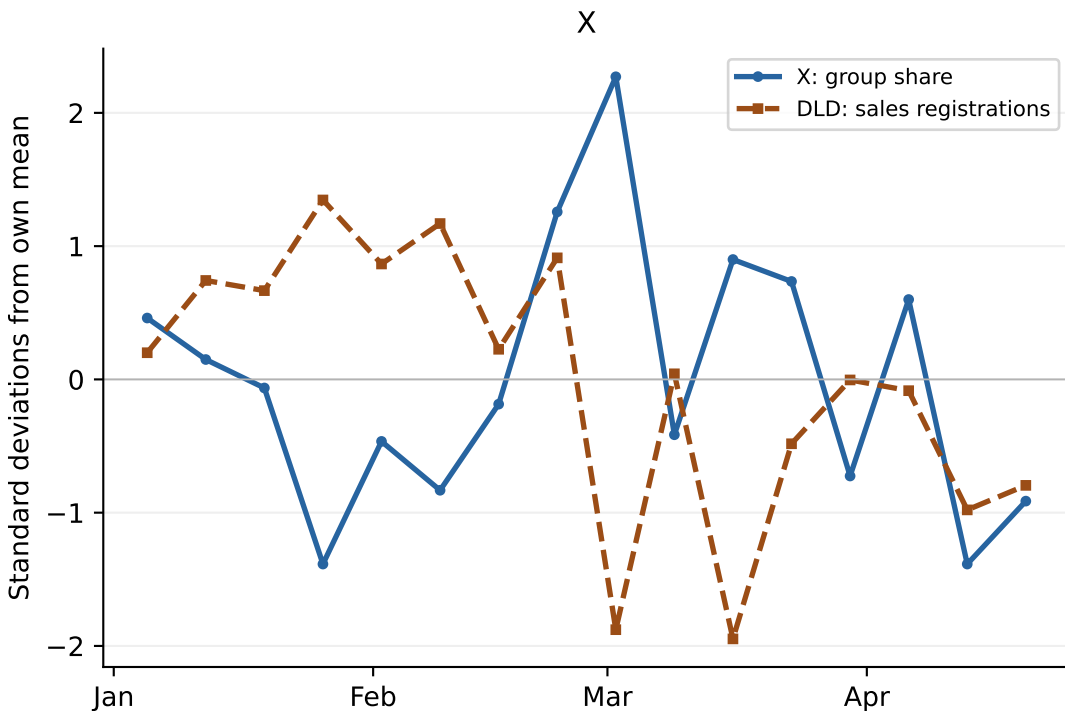

Context only: sales counts do not measure living conditions or management quality
16 Monday-Sunday weeks, January-April 2026. Standardisation compares movement, not units or causal effects.

Political, Geopolitical & Social Discourse vs Sales registrations

Primary: broad political/social attention versus sales activity, not pure geopolitical risk
16 Monday-Sunday weeks, January-April 2026. Standardisation compares movement, not units or causal effects.

Communication, Content & Platform Behaviour vs Sales registrations

Context only: no corresponding administrative measure of platform behaviour
16 Monday-Sunday weeks, January-April 2026. Standardisation compares movement, not units or causal effects.
